BIG SPECIAL SALE

OF FARM MARES, DRIVING
AND SADDLE MARES

AT MARION, KENTUCKY

SATURDAY, JANUARY 3rd, 1920, AT 1:00 P. M. SHARP

As this is my opening sale of the New Year, I will offer for sale to the highest bidder the best load of mares ever shipped to this country and the reason I am coming so early is because there has been two or three very large export contracts let out in this country already and these good mares will be so high a little later that I am afraid I will not be able to get them bought, so I can ship them to your country and take the price. For we look forward to the biggest export trade that was ever in this country, twice as large as in the time of war, because we all know the foreign countries will need lots of Mares and Mules and we know these good mares are scarce right now. I don't think any farmer should miss this grand opportunity. Buy your team of mares now and have them acuminated and ready to go to work. Every farmer in this country knows me and know that I bring the real good kind. I will take Liberty Bonds at market price, whatever is rated in the newspaper. Sale begins at 1 o'clock sharp. I will sell every mare to the highest bidder and have no by-bidders.

Can you doubt the evidence of this Marion citizen?

You can verify Marion endorsement. Read this:

T. C. Guess, East Depot St., says: "I have found Doan's Kidney Pills a splendid remedy for kidney weakness. For a long time, I have been subject to backaches and at times, my back is stiff and sore. The kidney secretions pass too frequently and I don't get much sleep at night. Doan's Kidney Pills, which I get at Haynes & Taylor's Drug Store, never fail to give me relief and I wouldn't be without them. I think they are a fine kidney medicine for old people."

THE UNIVERSAL CAR

Most of the Gas Companies throughout the country use a fleet of Ford Runabouts. The same is true of other big corporations. The reasons are very practical. The Ford Runabout is the most economical solution of quick transportation from manufacturer to retailer. For soliciting business, for the Collector, for the Doctor, Contractor, Builder, and almost every other line of business activity, the Ford Runabout is really a necessity. We solicit your order for one or more. We ask your repair business. We would like your motor accessory business. We can serve you, we believe, to your best advantage.

Evansville, Ind.On The Close of a Very
Successful Year

We have just added a very successful year.

Our records for the year show a splendid increase in our business. And we are very grateful for that, of course.

But the thing that pleases us most is the number of new out of town friends that we have made during the year. A great many new customers came to us during 1919; and most of them, we know, came at the suggestion of our old customers.

Steady growth of patronage, such as we have enjoyed, bespeaks much for our service. It shows that people are decided in their preference for the store that tries to make customers rather than merely sales. For the year 1920 we pledge the continuance of the high standards by which our business has grown.

The railways of the United States are more than one-third, nearly one-half, of all the railways of the world. They carry a yearly traffic of goods greater than that of any other country that there is really no basis for comparison. Indeed, the traffic of any two nations may be combined, and still it does not approach the commerce of America borne upon American railways.
—United States Bureau of Census.Ask Any Doughboy Who
Was "Over There"

and he will tell you that American railroads are the best in the world.

He saw the foreign roads—in England and France, the best in Europe—and in other Continental countries—and he knows.

The part railroads have played in the development of the United States is beyond measure.

American railroads have achieved high standards of public service by far-sighted and courageous investment of capital, and by the constant striving of managers and men for rewards for work well done.

We have the best railroads in the world—we must continue to have the best.

But they must grow.

To the \$20,000,000,000 now invested in our railroads, there will have to be added in the next few years, to keep pace with the nation's business, billions more for additional tracks, stations and terminals, cars and engines, electric power houses and trains, automatic signals, safety devices, the elimination of grade crossings—and for reconstruction and engineering economies that will reduce the cost of transportation.

To attract to the railroads in the future the investment funds of many thrifty citizens, the directing genius of the most capable builders and managers, and the skill and loyalty of the best workmen—in competition with other industries bidding for capital, managers and men—the railroad industry must hold out fair rewards to capital, to managers and to the men.

American railroads will continue to set world standards and adequately serve the Nation's needs if they continue to be built and operated on the American principle of rewards for work well done.

IS ESPECIALLY
EFFICIENT THIS
WAY, HE THINKSButts Laudes Trutona as
Combatant of Tired
Draggy, Rundown
Feeling.

Louisville, Ky., Dec. 19. "Trutona has put my stomach in shape to digest the food I eat and I think it is truly a wonderful medicine—the kind a man needs when he has that common tired, draggy, rundown feeling." C. A. Butts, 1413 East Washington street, Louisville, said recently.

"My system generally was in a weakened and run down condition," he continued. For the past thirty-five years I have worked in the foundry of the American Elevator and Machine Co., and I'd get so hot at my work that my system just naturally became run down.

"Realizing that I needed a good tonic that would build me up again and give me strength, I began using Trutona. I'm able to eat anything I want, since taking Trutona and I really enjoy the food, whereas before, I didn't enjoy any of my meals and consequently didn't get much good out of them. My bowels are acting regularly now, too. I can recommend Trutona more highly than any other medicine I've ever taken and I'm glad to do so."

Thousands of weakened and run-down men and women have found unhelped for relief through Trutona. Going straight to the seat of the trouble, Trutona quickly rebuilds worn-out tissues, creates a normal action of the stomach, liver and bowels and gives to the patient the long-sought-for strength of days

gone by. As a body invigorant and system purifier Trutona is peerless.

Trutona is now being introduced and explained in Marion at J. H. Orme's drug store.

three or four times a day to help restore the resistive power of the body. Coughs, colds and the like do not linger long when Scott's Emulsion is taken consistently and regularly. **Better try it!**

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous "S. & S. Process," made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed.
